Email: balajigandhi953@gmail.com
Mobile: +91-6302675757

SKILLS

Languages: Python, SQL, Java
Frameworks: NumPy, Pandas, Seaborn, Matplotlib, Seaborn, Scikit-learn
Tools/Platforms: MySQL, Power BI, Excel, Tableau, GitHub
Soft Skills: Problem-Solving, Adaptability, Team Player

PROJECTS

Global Space Exploration | GitHub Oct'25 – Dec'25

- Built an end-to-end Machine Learning pipeline to predict space mission success using structured global mission data, including preprocessing, feature encoding, and binary classification modelling.
- Performed Exploratory Data Analysis (EDA) to identify mission risk patterns, technology impact, and budget-performance correlations, improving model input feature quality.
- Developed and deployed an interactive AI-powered web application enabling real-time mission simulation and probability-based success prediction with confidence scoring.
- Implemented model serialization and production-ready deployment using cached resources and optimized state management for efficient real-time inference.

Tech Used: Python With Libraries, Streamlit, Joblib, Machine Learning, Classification Modeling

Employee Performance Segmentation for HR Insights | GitHub Jul'25 – Aug'25

- Engineered an unsupervised learning model (K-Means) to segment employees based on performance, productivity, and engagement metrics for data-driven HR decision-making.
- Conducted data cleaning, feature engineering, and exploratory data analysis (EDA) to improve clustering accuracy and identify performance patterns.
- Delivered an interactive Power BI dashboard to visualize employee segments, performance trends, and workforce insights for strategic HR planning.

Tech Used: EDA, Power BI, Scikit-learn, Unsupervised Learning

TRAINING

Summer Training | Lovely Professional University | Certificate Jun'25 – Jul'25

- Completed a 55+ hour hands-on Data Science training covering SQL, Excel, Power BI, and Python for end-to-end data analysis and decision-making.
- Performed data cleaning, transformation, and visualization using NumPy, Pandas, Matplotlib, and Seaborn; built interactive dashboards in Power BI.
- Developed and evaluated machine learning models using Scikit-learn, applying regression, classification, and clustering techniques on real-world datasets.

CERTIFICATES

- Apti Mania- A Competitive event based on Quantitative Aptitude | [LPU](#) Nov'25
- Problem Solving (Intermediate) Certificate | [HackerRank](#) Sep'25
- SQL (Advanced Certificate) | [HackerRank](#) Sep'24
- GenAI Powered Data Analytics Job Simulation | [Tata \(Forage\)](#) Dec'25

ACHIEVEMENTS

- Achieved Gold Badge in ([HackerRank](#)) Jan'26
- Solved 50 plus ([Leetcode](#)) Problems Dec'25

EDUCATION

Lovely Professional University Bachelor of Technology Computer Science and Engineering: 7.03	Phagwara, Punjab Since Aug'23
Sri Chaithanya College Intermediate; Percentage: 91%	Hyderabad, Telangana Jul'21 – Mar'23
Keshava Reddy School Matriculation; Percentage: 94.8%	Nandyala, Andhra Pradesh Jun'20 – Mar'21
